

# PSYCHIC PREDICTIONS FOR THE YEAR

- \* 1998 will actually precede the year 2000 by two years.
- \* During the course of the year about the same number of people will die as the year before.
- \* The prices for cars, medical care and food will rise.
- \* Taxes will go up.
- \* In Houston, at least 100 people will get busted for robbery in the month of April. [How's that for being specific, you skeptics?]
- \* In preparation for the year 2000, at least 2,000,000 people will do something stupid.
- \* While ignoring preparation for the year 2000, at least 2,000,000 people will do something stupid.
- \* Liz Taylor will appear on TV – fully clothed.
- \* It will rain in Houston for 40 days and 40 nites, maybe more.
- \* A postal worker will actually smile while on duty, somewhere in Houston – she will immediately be suspended and sent for psychological evaluation.
- \* It will rain and snow at the same time. [No one said anything about the same place.]
- \* UFOs will not land in front of the George R. Brown Convention center. If they do land anywhere in Houston, it will be at the Astrodome, thinking it's a buddy in need of help.
